## Informacionnye urovni poznanija Like 3

Authored by Grigori Grabovoi

The book "Information levels of cognition" gives the reader an opportunity to touch the inexhaustible source of practical knowledge of eternal development. The information levels of cognition of reality by man are endless, and the author's seminars, conducted by Grigori Grabovoi in 1979-1996, included in the book, reveal these huge capabilities of man. The received knowledge protects both the person, and his environment, and it works for the macro-protection of the whole planet. In conversations with the students of the seminars, the author answers many important questions. The reader will learn how to achieve absolute control to create constructive events; what the level of weak signals, correlating the event level of a person, is; how to concentrate consciousness, so that the creative process does not deplete the strength of man; what is the kind of nature of some diseases. The sections of the book contain technologies and methods of work. All information in the new book becomes available to the general public FOR THE FIRST TIME. This treasure will necessarily become a powerful springboard for the next stage of the development of mankind on the path of the Eternal Life of All!
